Oleksandr Holyshevskyi

ISTQB® Certified Tester | Top Software Testing Voice | Senior QA Engineer at NDA
Prague, Prague, Czechia

Summary

As a dedicated QA Engineer, I am passionate about leveraging technology to deliver exceptional results for my clients. My expertise lies in designing, developing, and executing automated tests to ensure the highest standards of software quality. My commitment to excellence is evident in my work, where I strive to enhance user experiences through meticulous testing and continuous improvement.

I bring unwavering energy and a collaborative spirit to every project, making me a reliable and valuable asset to any team. By focusing on precision and efficiency, I help organizations achieve their goals and deliver outstanding products.

Experience

NDA

Senior QA Engineer

July 2024 - Present (9 months)

Prague, Czechia

As a Senior QA Engineer, I specialize in Integration, Verification, Validation, and Qualification (IVVQ) processes for desktop products, ensuring that every release meets the highest standards of functionality, performance, and user experience.

In my role, I:

- Manage the IVVQ team.
- Define the test strategy of the solution.
- Manage all IVVQ activities, determine test effort and risks at solution level and ensure global consistencies.
- Lead the development and execution of test strategies, test cases, and automation frameworks tailored to desktop applications.

- Collaborate closely with cross-functional teams to identify, analyze, and resolve defects during early development phases.
- Drive continuous improvements in QA methodologies and processes, focusing on efficiency and quality.
- Leverage a deep understanding of QA tools and techniques to automate tests, conduct performance evaluations, and ensure seamless integration.

AdvantISS

Test Automation Engineer

August 2022 - July 2024 (2 years)

Sumy, Ukraine/Remote

As a Test Automation Engineer, I specialize in C# and TypeScript to create automated test scripts using Playwright and Selenium libraries. My strengths include building customized test frameworks tailored to project needs. I've worked on diverse projects, gaining adaptability and in-depth knowledge of software development processes. Additionally, I've mentored junior team members, sharing knowledge and ensuring high-quality results. I excel in essential tasks such as test case design and execution, contributing to project success through technical expertise and attention to detail.

PasynSoft LLC

Test Automation Engineer

February 2020 - August 2022 (2 years 7 months)

Sumy, Ukraine

Extensive experience on web application projects, I bring a strong technical knowledge to the table. My proficiency in using C# and TypeScript for writing automated tests has allowed me to effectively test and validate software functionality. Additionally, my experience with Selenium and the Playwright library has equipped me with the tools and skills necessary to create comprehensive test suites and ensure the highest level of software quality. In addition to my strong skills in C# and TypeScript, I am also well-versed in a range of other technologies, including JavaScript, NodeJS, SQL, Git, and Azure DevOps. These technical proficiencies have allowed me to effectively design, develop, and execute automated tests for web applications, and have equipped me with the ability to integrate my tests into a larger development workflow.

TechStudio

Quality Assurance Engineer

June 2019 - August 2021 (2 years 3 months)

Remote

As a QA Engineer on the IPTV project for mobile platforms iOS and Android, I have honed my skills in quality assurance and testing. I have created test cases and other testing artifacts, and have been responsible for testing both the frontend and backend of the application. Additionally, I have taken steps to improve the efficiency of our testing processes by starting to develop automated tests for the API using C#. My experience in this role has also allowed me to share my knowledge and mentor newcomers in the team, contributing to the growth and success of the company.
